TURKISH JOURNAL OF PHARMACEUTICAL SCIENCES

AIMS AND SCOPE

The Turkish Journal of Pharmaceutical Sciences is the only scientific periodical publication of the Turkish Pharmacists' Association and has been published since April 2004.

Turkish Journal of Pharmaceutical Sciences is an independent international open access periodical journal based on double-blind peer-review principles. The journal is regularly published 4 times a year and the publication language is English. The issuing body of the journal is Galenos Yayınevi/Publishing House.

The aim of Turkish Journal of Pharmaceutical Sciences is to publish original research papers of the highest scientific and clinical value at an international level.

The target audience includes specialists and physicians in all fields of pharmaceutical sciences.

The editorial policies are based on the "Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals (ICMJE Recommendations)" by the International Committee of Medical Journal Editors (2016, archived at <http://www.icmje.org/>) rules.

Editorial Independence

Turkish Journal of Pharmaceutical Sciences is an independent journal with independent editors and principles and has no commercial relationship with the commercial product, drug or pharmaceutical company regarding decisions and review processes upon articles.

OPEN ACCESS POLICY

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

Open Access Policy is based on the rules of the Budapest Open Access Initiative (BOAI) <http://www.budapestopenaccessinitiative.org/>. By "open access" to peer-reviewed research literature, we mean its free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited.

International scientific journal published quarterly.

TURKISH JOURNAL OF PHARMACEUTICAL SCIENCES

INSTRUCTIONS TO AUTHORS

Turkish Journal of Pharmaceutical Sciences is the official double peer-reviewed publication of The Turkish Pharmacists' Association. This journal is published every 3 months (4 issues per year; March, June, September, December) and publishes the following articles:

- Research articles
- Reviews (only upon the request or consent of the Editorial Board)
- Preliminary results/Short communications/Technical notes/Letters to the Editor in every field or pharmaceutical sciences.

The publication language of the journal is English.

The Turkish Journal of Pharmaceutical Sciences does not charge any article submission or processing charges.

A manuscript will be considered only with the understanding that it is an original contribution that has not been published elsewhere.

The Journal should be abbreviated as "Turk J Pharm Sci" when referenced.

The scientific and ethical liability of the manuscripts belongs to the authors and the copyright of the manuscripts belongs to the Journal. Authors are responsible for the contents of the manuscript and accuracy of the references. All manuscripts submitted for publication must be accompanied by the Copyright Transfer Form [copyright transfer]. Once this form, signed by all the authors, has been submitted, it is understood that neither the manuscript nor the data it contains have been submitted elsewhere or previously published and authors declare the statement of scientific contributions and responsibilities of all authors.

Experimental, clinical and drug studies requiring approval by an ethics committee must be submitted to the JOURNAL with an ethics committee approval report including approval number confirming that the study was conducted in accordance with international agreements and the Declaration of Helsinki (revised 2013) (<http://www.wma.net/en/30publications/10policies/b3/>). The approval of the ethics committee and the fact that informed consent was given by the patients should be indicated in the Materials and Methods section. In experimental animal studies, the authors should indicate that the procedures followed were in accordance with animal rights as per the Guide for the Care and Use of Laboratory Animals (<http://oacu.od.nih.gov/regs/guide/guide.pdf>) and they should obtain animal ethics committee approval.

Authors must provide disclosure/acknowledgment of financial or material support, if any was received, for the current study.

If the article includes any direct or indirect commercial links or if any institution provided material support to the study, authors must state in the cover letter that they have no relationship with the commercial product, drug, pharmaceutical company, etc. concerned; or specify the type of relationship (consultant, other agreements), if any.

Authors must provide a statement on the absence of conflicts of interest among the authors and provide authorship contributions.

All manuscripts submitted to the journal are screened for plagiarism using the 'iThenticate' software. Results indicating plagiarism may result in manuscripts being returned or rejected.

The Review Process

This is an independent international journal based on double-blind peer-review principles. The manuscript is assigned to the Editor-in-Chief, who reviews the manuscript and makes an initial decision based

on manuscript quality and editorial priorities. Manuscripts that pass initial evaluation are sent for external peer review, and the Editor-in-Chief assigns an Associate Editor. The Associate Editor sends the manuscript to at least two reviewers (internal and/or external reviewers). The reviewers must review the manuscript within 21 days. The Associate Editor recommends a decision based on the reviewers' recommendations and returns the manuscript to the Editor-in-Chief. The Editor-in-Chief makes a final decision based on editorial priorities, manuscript quality, and reviewer recommendations. If there are any conflicting recommendations from reviewers, the Editor-in-Chief can assign a new reviewer.

The scientific board guiding the selection of the papers to be published in the Journal consists of elected experts of the Journal and if necessary, selected from national and international authorities. The Editor-in-Chief, Associate Editors may make minor corrections to accepted manuscripts that do not change the main text of the paper.

In case of any suspicion or claim regarding scientific shortcomings or ethical infringement, the Journal reserves the right to submit the manuscript to the supporting institutions or other authorities for investigation. The Journal accepts the responsibility of initiating action but does not undertake any responsibility for an actual investigation or any power of decision.

The Editorial Policies and General Guidelines for manuscript preparation specified below are based on "Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals (ICMJE Recommendations)" by the International Committee of Medical Journal Editors (2016, archived at <http://www.icmje.org/>).

Preparation of research articles, systematic reviews and meta-analyses must comply with study design guidelines:

CONSORT statement for randomized controlled trials (Moher D, Schultz KF, Altman D, for the CONSORT Group. The CONSORT statement revised recommendations for improving the quality of reports of parallel group randomized trials. JAMA 2001; 285: 1987-91) (<http://www.consort-statement.org/>);

PRISMA statement of preferred reporting items for systematic reviews and meta-analyses (Moher D, Liberati A, Tetzlaff J, Altman DG, The PRISMA Group. Preferred Reporting Items for Systematic Reviews and Meta-Analyses: The PRISMA Statement. PLoS Med 2009; 6(7): e1000097.) (<http://www.prisma-statement.org/>);

STARD checklist for the reporting of studies of diagnostic accuracy (Bossuyt PM, Reitsma JB, Bruns DE, Gatsonis CA, Glasziou PP, Irwig LM, et al., for the STARD Group. Towards complete and accurate reporting of studies of diagnostic accuracy: the STARD initiative. Ann Intern Med 2003;138:40-4.) (<http://www.stard-statement.org/>);

STROBE statement, a checklist of items that should be included in reports of observational studies (<http://www.strobe-statement.org/>);

MOOSE guidelines for meta-analysis and systemic reviews of observational studies (Stroup DF, Berlin JA, Morton SC, et al. Meta-analysis of observational studies in epidemiology: a proposal for reporting Meta-analysis of observational Studies in Epidemiology (MOOSE) group. JAMA 2000; 283: 2008-12).

Authorship

Each author should have participated sufficiently in the work to assume public responsibility for the content. Any portion of a manuscript that

TURKISH JOURNAL OF PHARMACEUTICAL SCIENCES

INSTRUCTIONS TO AUTHORS

is critical to its main conclusions must be the responsibility of at least 1 author.

GENERAL GUIDELINES

Manuscripts can only be submitted electronically through the Journal Agent website (<http://journalagent.com/tjps/>) after creating an account. This system allows online submission and review.

The manuscripts are archived according to ICMJE, Web of Science-Emerging Sources Citation Index (ESCI), SCOPUS, Chemical Abstracts, EBSCO, EMBASE, Analytical Abstracts, International Pharmaceutical Abstracts, MAPA(Medicinal & Aromatic Plants Abstracts), Tübitak/Ulakbim Turkish Medical Database, Türkiye Citation Index Rules.

Format: Manuscripts should be prepared using Microsoft Word, size A4 with 2.5 cm margins on all sides, 12 pt Arial font and 1.5 line spacing.

Abbreviations: Abbreviations should be defined at first mention and used consistently thereafter. Internationally accepted abbreviations should be used; refer to scientific writing guides as necessary.

Cover letter: The cover letter should include statements about manuscript type, single-Journal submission affirmation, conflict of interest statement, sources of outside funding, equipment (if applicable), for original research articles.

The ORCID (Open Researcher and Contributor ID) number of the all authors should be provided while sending the manuscript. A free registration can be done at <http://orcid.org>.

REFERENCES

Authors are solely responsible for the accuracy of all references.

In-text citations: References should be indicated as a superscript immediately after the period/full stop of the relevant sentence. If the author(s) of a reference is/are indicated at the beginning of the sentence, this reference should be written as a superscript immediately after the author's name. If relevant research has been conducted in Turkey or by Turkish investigators, these studies should be given priority while citing the literature.

Presentations presented in congresses, unpublished manuscripts, theses, Internet addresses, and personal interviews or experiences should not be indicated as references. If such references are used, they should be indicated in parentheses at the end of the relevant sentence in the text, without reference number and written in full, in order to clarify their nature.

References section: References should be numbered consecutively in the order in which they are first mentioned in the text. All authors should be listed regardless of number. The titles of Journals should be abbreviated according to the style used in the Index Medicus.

Reference Format

Journal: Last name(s) of the author(s) and initials, article title, publication title and its original abbreviation, publication date, volume, the inclusive page numbers. Example: Collin JR, Rathbun JE. Involuntal entropion: a review with evaluation of a procedure. Arch Ophthalmol. 1978;96:1058-1064.

Book: Last name(s) of the author(s) and initials, book title, edition, place of publication, date of publication and inclusive page numbers of the extract cited.

Example: Herbert L. The Infectious Diseases (1st ed). Philadelphia; Mosby Harcourt; 1999:11;1-8.

Book Chapter: Last name(s) of the author(s) and initials, chapter title, book editors, book title, edition, place of publication, date of publication and inclusive page numbers of the cited piece.

Example: O'Brien TP, Green WR. Periocular Infections. In: Feigin RD, Cherry JD, eds. Textbook of Pediatric Infectious Diseases (4th ed). Philadelphia; W.B. Saunders Company;1998:1273-1278.

Books in which the editor and author are the same person: Last name(s) of the author(s) and initials, chapter title, book editors, book title, edition, place of publication, date of publication and inclusive page numbers of the cited piece. Example: Solcia E, Capella C, Kloppel G. Tumors of the exocrine pancreas. In: Solcia E, Capella C, Kloppel G, eds. Tumors of the Pancreas. 2nd ed. Washington: Armed Forces Institute of Pathology; 1997:145-210.

TABLES, GRAPHICS, FIGURES, AND IMAGES

All visual materials together with their legends should be located on separate pages that follow the main text.

Images: Images (pictures) should be numbered and include a brief title. Permission to reproduce pictures that were published elsewhere must be included. All pictures should be of the highest quality possible, in

JPEG format, and at a minimum resolution of 300 dpi.

Tables, Graphics, Figures: All tables, graphics or figures should be enumerated according to their sequence within the text and a brief descriptive caption should be written. Any abbreviations used should be defined in the accompanying legend. Tables in particular should be explanatory and facilitate readers' understanding of the manuscript, and should not repeat data presented in the main text.

MANUSCRIPT TYPES

Original Articles

Clinical research should comprise clinical observation, new techniques or laboratories studies. Original research articles should include title, structured abstract, key words relevant to the content of the article, introduction, materials and methods, results, discussion, study limitations, conclusion references, tables/figures/images and acknowledgement sections. Title, abstract and key words should be written in both Turkish and English. The manuscript should be formatted in accordance with the above-mentioned guidelines and should not exceed 16 A4 pages.

Title Page: This page should include the title of the manuscript, short title, name(s) of the authors and author information. The following descriptions should be stated in the given order:

1. Title of the manuscript (Turkish and English), as concise and explanatory as possible, including no abbreviations, up to 135 characters
2. Short title (Turkish and English), up to 60 characters
3. Name(s) and surname(s) of the author(s) (without abbreviations and academic titles) and affiliations
4. Name, address, e-mail, phone and fax number of the corresponding author
5. The place and date of scientific meeting in which the manuscript was presented and its abstract published in the abstract book, if applicable

TURKISH JOURNAL OF PHARMACEUTICAL SCIENCES

INSTRUCTIONS TO AUTHORS

Abstract: A summary of the manuscript should be written in both Turkish and English. References should not be cited in the abstract. Use of abbreviations should be avoided as much as possible; if any abbreviations are used, they must be taken into consideration independently of the abbreviations used in the text. For original articles, the structured abstract should include the following sub-headings:

Objectives: The aim of the study should be clearly stated.

Materials and Methods: The study and standard criteria used should be defined; it should also be indicated whether the study is randomized or not, whether it is retrospective or prospective, and the statistical methods applied should be indicated, if applicable.

Results: The detailed results of the study should be given and the statistical significance level should be indicated.

Conclusion: Should summarize the results of the study, the clinical applicability of the results should be defined, and the favorable and unfavorable aspects should be declared.

Keywords: A list of minimum 3, but no more than 5 key words must follow the abstract. Key words in English should be consistent with "Medical Subject Headings (MESH)" (www.nlm.nih.gov/mesh/MBrowser.html). Turkish key words should be direct translations of the terms in MESH.

Original research articles should have the following sections:

Introduction: Should consist of a brief explanation of the topic and indicate the objective of the study, supported by information from the literature.

Materials and Methods: The study plan should be clearly described, indicating whether the study is randomized or not, whether it is retrospective or prospective, the number of trials, the characteristics, and the statistical methods used.

Results: The results of the study should be stated, with tables/figures given in numerical order; the results should be evaluated according to the statistical analysis methods applied. See General Guidelines for details about the preparation of visual material.

Discussion: The study results should be discussed in terms of their favorable and unfavorable aspects and they should be compared with the literature. The conclusion of the study should be highlighted.

Study Limitations: Limitations of the study should be discussed. In addition, an evaluation of the implications of the obtained findings/results for future research should be outlined.

Conclusion: The conclusion of the study should be highlighted.

Acknowledgements: Any technical or financial support or editorial contributions (statistical analysis, English/Turkish evaluation) towards the study should appear at the end of the article.

References: Authors are responsible for the accuracy of the references. See General Guidelines for details about the usage and formatting required.

Review Articles

Review articles can address any aspect of clinical or laboratory pharmaceuticals. Review articles must provide critical analyses of contemporary evidence and provide directions of or future research. Most review articles are commissioned, but other review submissions are also welcome. Before sending a review, discussion with the editor is recommended.

Reviews articles analyze topics in depth, independently and objectively. The first chapter should include the title in Turkish and English, an unstructured summary and key words. Source of all citations should be indicated. The entire text should not exceed 25 pages (A4, formatted as specified above).

CORRESPONDENCE

All correspondence should be directed to the Turkish Journal of Pharmaceutical Sciences editorial board;

Sayani BHATTACHARYYA, Priyanka REDDY
- 432 Some New Hydrazone Derivatives Bearing the 1,2,4-Triazole Moiety as Potential Antimycobacterial Agents
Antimikobakteriyel Etki Göstermesi Beklenen Yeni Bazı 1,2,4-Triazol Yapısı Taşıyan Hidrazon Türevleri
Keriman ÖZADALI SARI, Oya ÜNSAL TAN, Dharmarajan SRIRAM, Ayla BALKAN
- 437 Flavonoids Isolated from *Vitex grandifolia*, an Underutilized Vegetable, Exert Monoamine A & B Inhibitory and Anti-inflammatory Effects and Their Structure-activity Relationship
Az Kullanılan Bir Bitki, Vitex grandifolia'dan İzole Edilen Flavonoidlerin Monoamin A & B İnhibitör ve Anti-enflamatuar Etkileri ve Yapı-aktivite İlişkisi
Oluwasesan M. BELLO, Abiodun B. OGBESEJANA, Charles Oluwaseun ADETUNJI, Stephen O. OGUNTOYE
- 444 Antibacterial and Antibiofilm Activities of Ceragenins against *Pseudomonas aeruginosa* Clinical Isolates
Cerageninlerin Klinik Pseudomonas aeruginosa Suşlarına Karşı Antibakteriyel ve Antibiyofilim Aktiviteleri
Çağla BOZKURT GÜZEL, Mayram HACIOĞLU, Gözde İNCİ, Paul B. SAVAGE
- 450 Investigation of the Voltammetric Behavior of Methyl dopa at a Poly (*p*-Aminobenzene Sulfonic Acid) Modified Sensor
Poli (p-Aminobenzen Sülfonik Asit) Modifiye Sensör ile Metildopanin Voltametrik Davranışının İncelenmesi
Gamze ERDOĞDU, Şevket Zişan YAĞCI, Ebru KUYUMCU SAVAN

TURKISH

JOURNAL OF PHARMACEUTICAL SCIENCES

CONTENTS

- 457 Rapid Stability Indicating HPLC Method for the Analysis of Leflunomide and Its Related Impurities in Bulk Drug and Formulations
Bulk İlaç ve Formülasyonlarda Leflunomid ve İlgili Safsızlıklarının Analizi için Hızlı Stabilite Göstergeli YBSK Yöntemini
Useni Reddy MALLU, Venkateswara Rao ANNA, Bikshal Babu KASIMALA
- 466 Phytochemical Screening and Toxicological Evaluation of *Sargassum wightii* Greville in Wistar Rats
Sargassum wightii Greville'nin Fitokimyasal Taraması ve Wistar Sıçanlardaki Toksikolojik Değerlendirmesi
Sathiya RAMU, Anita MURALI, Anbu JAYARAMAN
- 476 Cytotoxic Activity of Sesquiterpenoids Isolated from Endemic *Ferula tenuissima* Hub.-Mor & Peşmen
Endemik Ferula tenuissima Hub.-Mor & Peşmen'den Elde Edilen Seskiterpenoidlerin Sitotoksik Etkisi
Fadime AYDOĞAN, Şura BAYKAN, Bilge DEBELEÇ BÜTÜNER
- 481 Nanocarriers Used Most in Drug Delivery and Drug Release: Nanohydrogel, Chitosan, Graphene, and Solid Lipid
İlaç Dağıtım ve İlaç Salımında En Çok Kullanılan Nanotaşıyıcılar: Nanohidrojel, Kitosan, Grafen ve Katı Lipit
Sibel Aysıl ÖZKAN, Aylin DEDEOĞLU, Nurgül KARADAŞ BAKIRHAN, Yalçın ÖZKAN

PUBLICATION NAME	Turkish Journal of Pharmaceutical Sciences
TYPE OF PUBLICATION	Vernacular Publication
PERIOD AND LANGUAGE	Quarterly- English
OWNER	Erdoğan ÇOLAK on behalf of the Turkish Pharmacists' Association
EDITOR-IN-CHIEF	Feyyaz ONUR
ADDRESS OF PUBLICATION	Cinnah Mah. Willy Brandt Sok. No: 9 Çankaya-Ankara/TURKEY

TURKISH JOURNAL OF PHARMACEUTICAL SCIENCES

Volume: 16, No: 4, Year: 2019

CONTENTS

Original articles

- Comparative *in vitro* Assessment of the Methanol Extracts of the Leaf, Stem, and Root Barks of *Cnidoscopus aconitifolius* on Lung and Breast Cancer Cell Lines
Emmanuel Oise IKPEFAN, Buniyamin Adesina AYINDE, Azhar MUDASSIR, Ahsana Dar FAROOQ 375
- Synthesis and Hypoglycemic and Anti-inflammatory Activity Screening of Novel Substituted 5-[Morpholino(Phenyl)Methyl]-Thiazolidine-2,4-Diones and Their Molecular Docking Studies
Srikanth Kumar KARUMANCHI, Lakshmana Rao ATMAKURI, V Basaveswara Rao MANDAVA, Srikala RAJALA 380
- Intrinsic Stability Study and Forced Degradation Profiling of Olopatadine Hydrochloride by RP-HPLC-DAD-HRMS Method
Pawan Kumar BASNIWAL, Deepti JAIN 392
- In Vitro* Evaluation of the Chemical Composition and Various Biological Activities of *Ficus carica* Leaf Extracts
Mustafa ERGÜL, Merve ERGÜL, Nuraniye ERUYGUR, Mehmet ATAŞ, Esra UÇAR 401
- Spectrophotometric Quantification of Anti-inflammatory Drugs by Application of Chromogenic Reagents
Panikumar Durga ANUMOLU, Sunitha GURRALA, Archana GELLABOINA, Divya Gayathri MANGIPUDI, Sahitya MENKANA, Rajesh CHAKKA 410
- Considering the Effect of *Rosa damascena* Mill. Essential Oil on Oxidative Stress and COX-2 Gene Expression in the Liver of Septic Rats
Abolfazl DADKHAH, Faezeh FATEMI, Mohammad Reza Mohammadi MALAYERI, Mohammad Hassan Karvin ASHTIYANI, Sakineh Kazemi NOUREINI, Azadeh RASOOLI 416
- Effect of Surfactant on Azithromycin Dihydrate Loaded Stearic Acid Solid Lipid Nanoparticles
Sayani BHATTACHARYYA, Priyanka REDDY 425
- Some New Hydrazone Derivatives Bearing the 1,2,4-Triazole Moiety as Potential Antimycobacterial Agents
Keriman ÖZADALI SARI, Oya ÜNSAL TAN, Dharmarajan SRIRAM, Ayla BALKAN 432
- Flavonoids Isolated from *Vitex grandifolia*, an Underutilized Vegetable, Exert Monoamine A & B Inhibitory and Anti-inflammatory Effects and Their Structure-activity Relationship
Oluwasesan M. BELLO, Abiodun B. OGBESEJANA, Charles Oluwaseun ADETUNJI, Stephen O. OGUNTOYE 437
- Antibacterial and Antibiofilm Activities of Ceragenins against *Pseudomonas aeruginosa* Clinical Isolates
Çağla BOZKURT GÜZEL, Mayram HACIOĞLU, Gözde İNCİ, Paul B. SAVAGE 444
- Investigation of the Voltammetric Behavior of Methyl dopa at a Poly (p-Aminobenzene Sulfonic Acid) Modified Sensor
Gamze ERDOĞDU, Şevket Zişan YAĞCI, Ebru KUYUMCU SAVAN 450
- Rapid Stability Indicating HPLC Method for the Analysis of Leflunomide and Its Related Impurities in Bulk Drug and Formulations
Useni Reddy MALLU, Venkateswara Rao ANNA, Bikshal Babu KASIMALA 457
- Phytochemical Screening and Toxicological Evaluation of *Sargassum wightii* Greville in Wistar Rats
Sathya RAMU, Anita MURALI, Anbu JAYARAMAN 466
- Cytotoxic Activity of Sesquiterpenoids Isolated from Endemic *Ferula tenuissima* Hub.-Mor & Peşmen
Fadime AYDOĞAN, Şura BAYKAN, Bilge DEBELEÇ BÜTÜNER 476

Review

- Nanocarriers Used Most in Drug Delivery and Drug Release: Nanohydrogel, Chitosan, Graphene, and Solid Lipid
Sibel Aysıl ÖZKAN, Aylin DEDEOĞLU, Nurgül KARADAŞ BAKIRHAN, Yalçın ÖZKAN 481
